To Whom It May Concern;

Miss Erin was my daughter's and now is my son's kindergarten teacher at Keith Wold Johnson Child Care Center in Edison NJ. She is an amazing and excellent teacher whose passion for teaching is evident in the way she makes learning fun and positive experience with very effective way of getting things accomplished.

I feel that kindergarten can be an exciting or difficult adjustment for many students like it was for my son. She offers a youthful prospective that I really think helps her students. My daughter has excelled in her classroom. Now my Son has managed to sit still and really wants to listen to her and make her proud.

My children have become better readers and all around better students at school subjects thanks to her and her teaching ways and patience. Her classroom is filled with happy and confident children. I would recommend KWJ Kindergarten to every parent! The skills they learn and use are above and beyond any expectation.

Sincerely,

Arnold Family
